What is Home and Hospital Teaching?

A temporary program of instruction when a student is unable to attend school due to a physical, medical or emotional condition, an extended illness, a chronic illness, or a planned medical procedure. Services are offered to students who are receiving treatment while at home, in the hospital, or at treatment centers, and will be out of school for 3 weeks or more.

Authorized treatment providers are required to verify the need for services.

Services can be provided on the following basis:

Full-time – the student does not attend school at all during the week.

Part-time – the student has a modified daily schedule and is in school for some of the day, each day.

Concurrent – the student is anticipated to be out of school intermittently (≥ 36 days/school year) due to a chronic condition.

How do I obtain this service for my child?

- ❖ Speak with your child's counselor or school administration about the need for this service.
- ❖ Contact the PPW assigned to your child's school to discuss their needs and whether HHT services would be appropriate.
- ❖ An application can be obtained from the PPW for your child's school or the local Student Services office.
- ❖ Complete the student information page on the application and have an authorized treatment provider complete the rest of the application. Be sure to sign the application.
- ❖ Return the application to the PPW for a decision on whether services will be approved.

If Services Are Approved...

- ❖ An instructional plan will be created for your student for the duration that they are receiving HHT.
- ❖ The PPW or local Student Services office will work to assign a home and hospital teacher(s) to work with your student. Depending on the student's needs and subjects covered, this step can take additional time to complete.

- ❖ Once the teacher is assigned, an official notice will be sent to all parties including the parent(s)/guardian(s), home and hospital teacher(s), and appropriate school staff.
- ❖ The home and hospital teacher will arrange sessions with the student and family at mutually agreed upon dates and times.
- ❖ The minimum number of hours scheduled will depend on the type of service approved:
 - Full time = 6 hours/week
 - Part-time = 3 hours/week
 - Concurrent = 1-3 hours/week depending on weekly absences.
- ❖ Students may be required to finish or complete assignments outside of the timeframes listed above
- ❖ Services are primarily provided through virtual, 1:1 sessions with the home and hospital teacher.
- ❖ Grading will depend on the type of service approved.
- ❖ The student will be marked as present on days when they are not in school due to their verified condition.
- ❖ If your child's medical professional returns your child to school prior to the duration of the student's assignment, please notify your child's school and the PPW office.
