

Overview

Using Family Connection, you can help your student prepare for success after high school. Use this quick guide to get started with the tools described below.

Career Planning

To access the Career Planning tools in Family Connection, log in and click the **Career** tab.

To **view** the results of your student’s assessments:

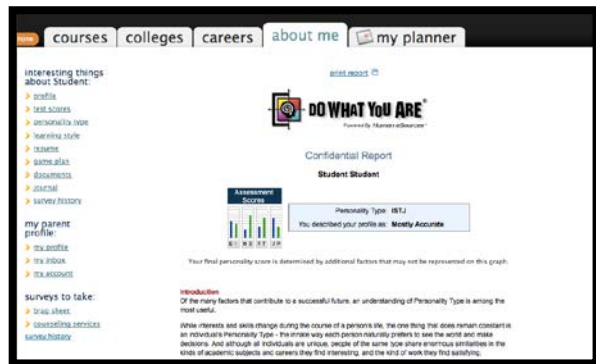

1. Log into Family Connection.
2. Click the **Careers** tab.
3. The assessments that are available for your student are listed in the **What are my interests?** section.
4. Click any of the assessment links (personality type, cluster finder, career interest profiler or career key) to view assessment results.

College Planning

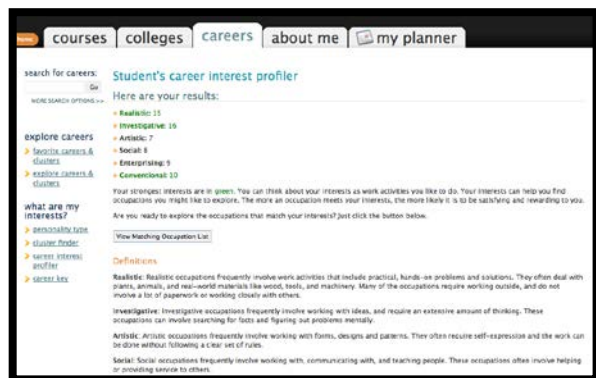

To access the College Planning tools in Family Connection, log in and click the **Colleges** tab.

To **search** for colleges:

1. Click the **Colleges** tab in Family Connection.
2. Click **SuperMatch™ College Search** in the **College Research** section.

The **Do What You Are™** assessment shows your student’s personality type and provides detailed information on the strengths and preferred learning style of an individual with that personality type.

The **Career Interest Profiler** lists your student’s interests as they relate to work activities.

To **view** results:

1. As you make your selections, the results will appear in right column.
2. Click the college name to expand more information.
