

Science Field Study

Harford County Public Schools

FOR OFFICE USE ONLY

Admin. approval received _____

Transportation Booked _____

Transportation # _____

The goal of the field experience program is to have students extend beyond the classroom and apply their knowledge in the field. Harford Glen EEC will assist you in organizing many of the necessary components for quality field studies, including transportation, location coordination, safety instruction, medical history/permission forms, equipment, and staffing (if available). Busses for these trips will be available to pick students up from school at 9:00am and return them to school no later than 1:45pm.

Please fill out this application. You may send it in the courier to Harford Glen, Attention: Chris Burley or e-mail it to christopher.burley@hcps.org. The application will be reviewed by Howard Eakes. Upon approval Chris will contact you and assist with gathering funding (if needed), procuring transportation, and setting up a reasonable schedule. If it requires a visit to a place of business, he will assist in booking that portion of the trip.
