

Math Test

Please review the following concepts with your child as well as looking through worksheets that have come home, My Reference Book, and Home Links pages. Good luck!

- Count the value of a given set of mixed currency (quarters, dimes, nickels and pennies)
- Solve basic addition and subtraction facts quickly
- Solve basic addition facts with missing addends quickly
- Estimate quantities to 100
- Solve 2-digit addition/subtraction story problems
- Identify missing numbers on a number grid (be able to count 10 less and 10 more)
- Determine change for amounts under \$1.00
- Determine temperature to the nearest degree
- Identify odd and even numbers
- Identify place value up to the hundreds place
