FOR IMMEDIATE RELEASE

AUGUST 2, 2010

2010-11 SCHOOL BUS SCHEDULES AND ROUTES

School bus schedules and routes for the 2010-11 school year for Harford County Public Schools have been released. School is scheduled to open for approximately 40,000 public school students on Monday, August 30, 2010. Approximately 35,000 students will be transported by school buses daily. The bus schedules are available on the Harford County Public Schools website at www.hcps.org.

Since routes are based on estimated fall enrollments, school officials remind parents and students to expect minor adjustments in bus loads and schedules during the first week of school in order to alleviate any overcrowded buses.

Students attending Harford Technical High School, Daytime Alternative Education (starts Wednesday, September 1, 2010), the Science and Math Academy at Aberdeen High School, the Global Studies Program/International Baccalaureate Diploma Programme at Edgewood High School and the Natural Resources and Agricultural Science Magnet Program at North Harford High School will be contacted by postcard with their bus information. Science and Math Academy at Aberdeen High School students living in the Aberdeen High attendance area will ride the Aberdeen High School bus that provides service to their neighborhood (please see Aberdeen High School bus routes). Global Studies Program/International Baccalaureate Diploma Programme at Edgewood High School students living in the Edgewood High attendance area will ride the Edgewood High School bus that provides service to their neighborhood (please see Edgewood High School bus routes). Natural Resources and Agricultural Science Magnet Program at North Harford High School students living in the North Harford High attendance area will ride the North Harford High School bus that provides service to their neighborhood (please see North Harford High School bus routes). John Archer School and any elementary pre-school program students will be contacted by their bus drivers, as will all other students riding a special needs bus, both in county and out-of-county.

Bus routes are planned so that a maximum number of children are picked up and discharged at the nearest stop to their home. Generally, bus stops are located at least one-fourth mile apart. The bus drivers will inform the children of the designated stops during the first few days of school.

The a.m. time for each bus is the estimated time of the first stop the bus will make on its morning run. This time may vary several minutes during the first few days of school until each driver is able to establish a definitive schedule. Students should plan to be at the bus stop at least five minutes before the scheduled pick-up time. Students attending magnet programs (Harford Technical High School, Daytime Alternative Education, Science and Math Academy at Aberdeen High School, Global Studies Program/International Baccalaureate Diploma Programme at Edgewood High School, Natural Resources and Agricultural Science Magnet Program at North Harford High School) should plan to be at the bus stop at least ten minutes before the scheduled pick up time. Children who plan to use bus transportation are encouraged to ride the bus beginning the first day of school to facilitate the establishment of the time schedule and the bus load.

2010-11 BUS ROUTES

-2-

The p.m. return time to home for each bus may be longer at the beginning of the school year to accommodate students adjusting to new school settings. Once the schedule has been established, there will be a normal drop-off time for each student.

The pupil transportation rules will be distributed to each pupil on the first day of school and discussed in class. Parents are urged to review the rules with their children, which can be found at the Harford County Public Schools website (www.hcps.org) as well as the Parent-Student Handbook and Calendar.
