NOTES

¹ The state and local request amounts are subject to change.

² The Havre de Grace Middle/High School replacement calculations are based on FY 2017 state criteria; the FY 2018 criteria has not been made available. Once the FY 2018 criteria are available, the estimates will be updated.

³ If the Roye Williams Elementary School HVAC Major construction project is funded, the state and local request will change for the Emergency Systems & Communications and the Domestic Water & Backflow Prevention categories. Two critical need projects (sprinkler head replacement and domestic water line replacement) have been identified at the school and are included in those CIP categories.
