FOR IMMEDIATE RELEASE

JANUARY 28, 2010

### **Kids & Chemistry to visit Fountain Green Elementary School**

Fountain Green Elementary School fifth graders will have the opportunity to work with chemists from Aberdeen Proving Ground on Friday, January 29th, from 1:10 to 2:10 p.m. The chemists are part of a program called Kids & Chemistry, which is sponsored by the Edgewood Chemical and Biological Center. Fountain Green Elementary School was fortunate to be selected as a participating school for the program.

The Kids & Chemistry Program, established in the year 2000, is a group of approximately 20 volunteers that provides Harford County's youth with an educational opportunity to interact with some of the U.S. Army's most skilled scientists, engineers and computer analysts during hands-on science projects held throughout the year. The program's goal is to inspire students to pursue higher education and career opportunities in the sciences.

Volunteers from the organization will visit Fountain Green for three, one-hour visits to guide the students in hands-on experiments. During the first visit tomorrow, students will participate in the 'Jiggle Jelly Experiment.'

**When:** Friday, January 29, 2010  
1:10 - 2:10 p.m.
