FOR IMMEDIATE RELEASE

February 5, 2010

Drug dog scan conducted at Havre de Grace High School

A routine, random drug dog scan was performed at Havre de Grace High School yesterday, February 4th. The scan, done as part of the school system's commitment to keeping illicit drugs out of the schools, was accomplished using a canine under the direction of the Havre de Grace Police Department.

The scan involved 271 lockers being sniffed by the dog. The 40-minute scan – supervised by three Havre de Grace police officers, one drug dog, four administrators from the school, and the school system's Coordinator of Safety and Security – produced four alerts that resulted in no controlled dangerous substances.
