FOR IMMEDIATE RELEASE

November 10, 2010

Drug dog scan conducted at Havre de Grace High School

A routine, random drug dog scan was performed at Havre de Grace High School Friday, November 5th. The scan, done as part of the school system's commitment to keeping illicit drugs out of the schools, was accomplished using a canine under the direction of the Havre de Grace Police Department.

The scan involved 245 lockers being sniffed by the dog. The 30-minute scan – supervised by three Havre de Grace police officers, one drug dog, two administrators from the school, and the school system's Coordinator of Safety and Security – produced one alert that resulted in no controlled dangerous substances.
