FOR IMMEDIATE RELEASE

NOVEMBER 29, 2011

Drug dog scans conducted at Fallston High School

Two routine, random drug dog scans were conducted at Fallston High School today. The scans, done as part of the school system's commitment to keeping illicit drugs out of the schools, were accomplished using a canine under the direction of the Harford County Sheriff's Office.

The building scan involved 320 lockers being sniffed by the dog. The six-minute scan (8:08 to 8:14 a.m.) – supervised by four Harford County Sheriff's Office deputies, one drug dog, two school administrators and the school system's Coordinator of Internal Investigations – resulted in no alerts.

The parking lot scan involved 29 vehicles in the school's parking lot being sniffed. The 19-minute scan (8:17 to 8:36 a.m.) – supervised by five Harford County Sheriff's Office deputies, one drug dog, two school administrators and the school system's Coordinator of Internal Investigations – resulted in one alert that produced no controlled dangerous substances or tobacco violations.
