Virtual Get Together: Behavior
Tuesday, November 17th at 7 PM

Our next Virtual Get Together will focus on behavior. Joining us will be school psychologists Ilene O’Donnell and Larissa Morgan Borkowski. Both of them work with caregivers and staff members in the Birth-Five program. They provide behavioral consultation, assessments and support. Larissa also works with the STRIVE Program for students with Autism spectrum disorder and other disabilities who benefit from Applied Behavior Analysis.

Behavior has been a much requested topic, however it is a huge theme. To help focus the discussion, we’d like your questions. What are the struggles? Are you looking for suggestions to help your child improve his or her behavior? Maybe you want proactive strategies and some overall suggestions. What are you curious about? We want to know so that we can focus the discussion to better support your needs and concerns.

If you would like to join us, please send an email to Carie.Sadowski@hcps.org. Be sure to include any questions you have about your child’s behavior. RSVPs will be accepted up to the meeting time, however it would be helpful to Ilene and Larissa to have questions before Monday.

Virtual Holiday Party

We may not be able to gather in person, but we can still celebrate the holidays together. A Virtual Holiday Party is in the works for Thursday, December 10th at 6 PM. More details to follow. We hope you will be able to join us.

It is a 6-session class designed to help parents understand the IEP process and how to advocate for your child. The program will be offered in January 2021.

For more information about programs at The ARC or to register for the Virtual IEP Breakdown, reach out to the Family Support Services team (Sue, Flossie & Phil) at FSS@arcncr.org.

What are the benefits from a bedtime routine? Good early childhood sleep routines are associated with several positive developmental outcomes and can increase oral language development, supporting our little ones’ healthy minds and bodies.
