

GO GREEN SAVE GREEN

SMALL CHANGES, BIG IMPACT

POWER DOWN

Turn off **lights, monitors, and devices** when they're not in use. Even short breaks make a difference!

STAY COOL, STAY EFFICIENT

Avoid opening windows. If your space feels too warm, submit a Facilities work order for assistance.

SKIP THE SPACE HEATER

Space heaters **use a lot of energy and can pose safety risks.** If your space feels too cold, submit a Facilities work order for help.

STREAMLINE YOUR ENERGY USE

CONSOLIDATE APPLIANCES

Use a shared refrigerator instead of multiple mini fridges around the building.

MINIMIZE ALTERNATIVE LIGHTING

Limit the use of alternative lighting, such as floor and desk lamps.

BE PROACTIVE

See Something? Say Something!

If you notice temperature, lighting, or energy issues, **reach out to Facilities** before using personal devices or extra equipment.

THANK YOU FOR DOING YOUR PART!

Every small step adds up to a greener, more energy-efficient school system. Together, we're creating a more sustainable future for our students and community.
