

## Additional Sharing Option

If you want students to work on their own copy of a Padlet, toggle the 'Create a copy for each user' option. Students will get their own copy when they click on the link in the assignment and you will be automatically added as a shared member to the padlet.

The screenshot shows a window titled "Link Resource from External Tool" with a close button (x) in the top right corner. The window content includes the Padlet logo and "Harford County Public Schools" text on the left. On the right, there is a user profile icon. Below the logo, there are two buttons: "Open dashboard" (light blue) and "Make a padlet" (pink). At the bottom, there is a toggle switch labeled "Create a copy for each user" with the subtext "Use this padlet as a template. Turn this off if you want all users to work on the same padlet." A red arrow points to the toggle switch, which is currently turned on (white circle on a purple track).
