In the event of an inconsistency among provisions of this solicitation, the inconsistency shall be resolved by the following order of precedence:

**32.0 IT ACCESSIBILITY PROGRAM**

- 32.1 Section 508 of the Rehabilitation Act of 1973 (29 U.S.C. 794d), as amended, is a federal law that requires agencies to provide individuals with disabilities equal access to electronic information and data comparable to those who do not have disabilities, unless an undue burden would be imposed on the agency. The Section 508 standards, which are periodically updated, are the technical requirements and

criteria that are used to measure conformance within this law. More information on Section 508 and the technical standards can be found at [www.section508.gov](http://www.section508.gov).

33.2 Section 508 requires agencies, during the procurement, development, maintenance, or use of Information and Communication Technology (ICT), to ensure that individuals with disabilities have access to and use of ICT information and data comparable to that afforded to individuals without disabilities (i.e., "ICT accessibility"), unless an undue burden would be imposed on the agency. The Section 508 technical standards incorporate the Web Content Accessibility Guidelines (WCAG) 2.0 Level A and AA as a baseline for web and digital accessibility. For Maryland public schools and agencies, state law additionally requires conformance with WCAG 2.1 AA for all new or updated digital content and software.

#### **34.0 TECHNOLOGY-BASED INSTRUCTIONAL PRODUCTS**

33.1 HCPS is committed to ensuring that digital technology (hardware, instructional software, online resources, and computer-based equipment) is accessible to individuals with disabilities. The Vendor guarantees that all digital tools supplied under this contract meet the accessibility requirements of the Web Content Accessibility Guidelines ("WCAG") 2.1 Level AA and conform to the most recent Section 508 standards for information technology accessibility under the federal Rehabilitation Act of 1973, unless undue burden is demonstrated and documented. "Digital tool" is defined pursuant to Md. Code Ann., Educ., § 7-910.

33.2 All online platforms must conform to the guidelines for accessibility as set forth in the WCAG version 2.1 (minimum Level AA conformance). HCPS will only consider vendors whose products conform to these standards. Conformance to the specified standards can be documented through the submission of an up-to-date, complete, and accurate Accessibility Conformance Report (ACR). The ACR must address the leading ICT accessibility standards: Section 508 (U.S.), EN 301 549 (EU), and W3C/WAI WCAG. The ACR must include the latest version of the [Voluntary Product Accessibility Template](http://www.itic.org/) (VPAT®), which can be obtained from the Information Technology Industry Council (ITI) website (<https://www.itic.org/>).

33.3 For digital tools, vendors are required to submit an accessibility conformance report at the time of proposal or bid that includes a Voluntary Product Accessibility Template for any invitation for bids, requests for proposals, procurement contracts, grants, or modifications to contracts or grants. The accessibility conformance report must explain how information and communication technology products, including software, electronic content, and support documentation, conform to the most recent ICT accessibility standards: Section 508 (U.S.), EN 301 549 (EU), and W3C/WAI WCAG. The instructions and the required forms can be found at the General Services Administration (GSA) Section 508 website at <https://www.section508.gov/sell/how-to-create-acr-with-vpat/>.

#### **33.4 Vendor Notice of Equivalent Access Standards**

In accordance with Md. Code Ann., Educ., § 7-910, "equivalent access" includes the ability to receive, use, and manipulate information and operate controls necessary to access and use information technology, including by nonvisual means, so that a student with disabilities can access the same services as a student without disabilities with substantially equivalent ease of use.

"Equivalent access" includes:

1. Keyboard controls used for input and synthesized speech;
2. Braille; and

"Nonvisual access" means the ability to receive, use, and manipulate information and operate controls necessary to access information and communications technology through keyboard controls, synthesized speech, braille, or other methods not requiring sight.

This clause will survive the termination of the contract.
- 33.5.2 Vendors failing to meet the equivalent access standards established under Subsection (a)(2) of Section 508 of the federal Rehabilitation Act of 1973 or WCAG 2.1 Level AA may face civil penalties set forth in Md. Code Ann., Educ., § 7-910.
- 33.5.3 For all technology based instructional products, online platforms, and digital tools, Vendors must maintain and improve their digital accessibility in compliance with evolving standards and best practices. Vendors will provide a listing of timelines for expected improvements to the programs. Vendors will establish a mechanism for users to report accessibility issues and ensure prompt resolution of reported problems.

### **33.6 Third-Party Technology**

The Vendor acknowledges that supplying third-party technology does not exempt the Vendor from ensuring product compliance with this clause. The Vendor bears sole responsibility for determining the accessibility of such technology and must ensure that it can be edited or remediated as necessary to comply with accessibility standards.

- 34.3 If either party is delayed by force majeure, the time of contract completion may be extended by contract modification, for a period of time equal to that delay caused under this condition. HCPS may also consider requests for price increase for raw materials that are directly attributable to the cause of delay. HCPS reserves the right to cancel the contract and/or purchase materials, equipment or services from the best available source during the time of force majeure, and Contractor shall have no recourse against HCPS. Further, except for payment of sums due, neither party shall be liable to the other or deemed in default under this contract, if and to the extent that such party's performance of this contract is prevented by reason of force majeure as defined herein.
